– 120 YEARS –

IN THE MAKING

Our founder, Arthur Shaw, established Shaws of Darwen with a typically Lancastrian blend of vision and pragmatism.

As manager of the Darwen Colliery, he noticed that the clay brought up from the mine was of extraordinary quality. His vision – to make the finest handcrafted fireclay sinks in the whole of England – arose from a desire to turn a wasted by-product into something of beauty and value.

Today, over 120 years on, that vision has been more than realised. Shaws now enjoys not only a national, but a worldwide reputation for the beauty, quality, craftsmanship and sheer practicality of our unique artisan products.

Shaws sinks continue to be handcrafted at our premises in the same quiet corner of North West England as they were when Arthur Shaw first started out on Valentine's Day 1897.

The techniques lovingly used by our craftsmen haven't changed in all those years. Every handmade Shaws sink still carries an impression on its base of the name of the master craftsman who created it. This, along with a Shaws Certificate of Authenticity, is our assurance that your investment has been handcrafted for life.

OUR PROCESS

Handcrafted *for life*

Iconic, timeless, aspirational and tactile, each sink is an original design, handcrafted to give a lifetime of service and pleasure.

At Shaws we don't believe in mass production; we believe in quality, individuality and authenticity in all we do. It takes time to hand-make Shaws sinks, between three to four weeks in total, using time-honoured techniques that have been passed down from master craftsman to apprentice for well over a century.

Known as 'slip casting', the process begins with a mixture of locally sourced clay and water being poured into porous moulds – by hand, naturally.

When the newly formed sinks are dry enough, craftsmen remove them from their moulds before getting to work doing what they do best – expertly hand-finishing these artisan products through a process of sponging and 'fettling' to create a smooth surface.

Once this stage is complete, the sinks are then left to gradually dry out for a period of no less than 40 hours. Only then are they deemed ready to be prepared with a first coat of glaze, before being glazed for a second time to improve the feel and durability of the product. Firing in specially designed kilns at temperatures of over 1200 degrees Celsius completes this rigorous process.

OUR BELIEFS

Pride & Passion

First and foremost, Shaws is a company that believes wholeheartedly in delivering on our promise: *To make the most beautiful, practical, handcrafted fireclay sinks in the world.*

We believe in being authentic in all we do, using traditional, time-honoured techniques to produce iconic products that grace the finest establishments and homes the world over.

We believe that our reputation for delivering quality and reliability is as important as producing timeless and elegant design pieces; that's why every Shaws sink comes with a lifetime guarantee.

We believe that every sink that bears the Shaws name should be a thing of beauty, a unique creation, with a charm and character all of its own, bearing testament to the skill and expertise of the master craftsman who lovingly and painstakingly created it.

THE

COLLECTION

Shaws fireclay sinks are regarded as the finest in the world.
We had resisted the temptation to gild the lily.
How do you enhance an icon of interior design?

It has taken us 120 years to evolve our sinks
to offer as much individuality as they do practicality
and durability. The result is our new Gallery Collection,
embellishing our most popular sinks with
exclusively-designed artwork inspired by nature.

– LINES –

The simple symmetry of fine vertical lines creates a minimalist look when coupled with the rectangular shape and lustrous surface of a Shaws sink. Together these geometries express a design sophistication and architectural attitude akin to modern art.

Clean, crisp, dynamic, this linear look juxtaposes with silhouettes of fixtures and cabinets, verticals and horizontals, to create a statement kitchen that's truly a showpiece.

– PATINA –

A patina is formed through a chemical reaction creating a lush abstraction of colour and shine. Patina is also the aura of refinement that comes with time.

The Shaws patina design fits both descriptions. A blending of shade and hue adorns sinks that are created by hand according to traditions set in 1897. Together they form a timeless look that is the epitome of understated luxury.

– EUCALYPTUS –

The Eucalyptus is prized for its purifying and healing properties, and famous for its uplifting scent. Used as the central focus in floral design, the Eucalyptus complements flower arrangements with its long stems, oval leaves, and blue, green, and silvery colors.

Shaws sinks capture the essence of the Eucalyptus with soft shapes that evoke relaxation and renewal.

– ELEMENTS –

The elements of water and air come together in a rich and absorbing abstract design, beautifully depicted on Shaws sinks.

Their meeting creates an ombre effect, a gradation from light to dark, sky to ocean, wind to waves. This elemental decoration evokes a soothing sense of tranquility, a connection to nature and to the beauty of the earth.

CARING FOR YOUR SHAWS SINK

Shaws sinks are proven to be incredibly durable and long-lasting.

To keep your investment looking at its best, we recommend it be cleaned daily using a soft sponge or cloth and a non-abrasive cleaning product – a simple solution of soap and water generally does an excellent job.

Although extremely hardwearing (being heatproof, and resistant to impact, chemicals, dirt & stain and odours), not even a Shaws fireclay sink is impervious to damage.

So, if some unfortunate accident damages the surface of your pride and joy, we have a range of accessories that will easily restore it to its original beauty.

At Shaws our promise to you is to provide the best sinks in the world, backed up with outstanding personal customer service. That's why all our products are not only of exceptional quality, but carry comprehensive warranties to give you total peace-of-mind.

All Shaws sinks carry a **Lifetime** Warranty

PLEASE NOTE, our sink dimensions can vary by a plus or minus of 2%, as they are hand-made and shrink during firing. We therefore recommend that your kitchen fitter is aware of this and that no work surfaces or cabinets are cut before measuring your sink. Due to the handcrafted nature and weight of our sinks, we also recommend a specialist fitter installs your sink and that it is properly supported.

Please see website for warranty details of our sinks, taps and accessories.
